textures - dimple

Pacifica® Textures incorporates Pacifica® Hide, Pacifica® Weave and the new Pacifica® Dimple ranges. They all feature the same, hard wearing construction as Pacifica® Standard. Popular in commercial, contract, and marine upholstery applications, Pacifica Hide, Weave and Dimple provide genuine flexibility to create comfortable and attractive interior and exterior seating options.

Pacifica Hide range features an attractive, pronounced grain for those who prefer the appearance of highly textured leather. Pacifica Weave introduces a stylish woven effect that has the attractive cross-hatched look of natural wicker and Pacifica Dimple offers a sophisticated and timeless chesterfield look.

Many of the colours within the Pacifica® Textures range can be colour coordinated with Pacifica® Standard, offering limitless options for creativity in upholstery design.
